

MBE SafeValue: Mail Boxes Etc.'s *all-in-one-solution* for packing, shipping and coverage

Milan, Italy (April 11, 2018) – MBE SafeValue is MBE's exclusive solution for private and business customers which covers shipped items against in-transit loss or damage, including content, packing and shipping charges.

MBE SafeValue is part of the MBE Network's broader value-added service portfolio, which encompasses truly "*end-to-end-coverage*" for high-valued goods and which, for qualifying cases, reimburses not only the good's value, but also shipping and packing charges.

"Whether you are an art lover who bought an item at auction or an art gallery needing to ship pieces to customers"- said Giuseppe Rudi, Chief Operating Officer MBE Worldwide –"MBE takes care of the entire process spectrum: coverage program applicability, on request pick-up, customized packing materials and methods, shipping, coverage and claims management."

MBE SafeValue covers a wide range of goods – from high-tech items to works of art, musical instruments, valuable books, etc. The service, however, is only applicable to qualifying shipments processed by MBE and transported with select pre-approved shipping partners.

About MBE Worldwide

MBE Worldwide S.p.A. (“MBE”), a family-owned Italian holding company based in Milan - Italy, is one of the world’s largest networks of conveniently located Service Centers offering shipping, logistics, printing, marketing and communication solutions to business and private customers. MBE Service Centers, owned and managed by independent entrepreneurs and supported by experienced service teams, offer consumers and small and medium-sized enterprises, customized outsourced solutions to support their businesses and activities. In 2017, with the acquisition of AlphaGraphics and PostNet (two US companies with a service offering similar to MBE), MBE expanded its global network to ca. 2,500 locations in 44 countries, with combined System-wide Sales of approximately \$940 Million (FY2017).
